On Arrival

- ☐ Select as flat and level a parking site as possible. Use leveling blocks if required.
- ☐ Ensure the solar panels are not covered by shade as then they will not charge the 12V battery properly.
- ☐ Connect 240V electricity *if applicable*
- ☐ Connect city water *if applicable*
- ☐ Connect greywater *if applicable*
- ☐ Ensure LPG gas bottle is open
- ☐ Turn on button 1-3 on the Battery and Water Control Panel
- ☐ Turn the water pump on, if not connected to city water
- ☐ Turn the hot water heater on using either 240V or LPG gas.
- ☐ Ensure the refrigerator (in auto mode) switch to either 240V or LPG gas.
- ☐ If using LPG gas, turn the refrigerator fan on.

Ensure that the rooftop solar panels are not covered by shade.

Please note! If using LPG gas, it can take up **20 minutes** before the fridge turns on.

The refrigerator must be level and will not operate if not parked on a flat surface.
